

**Zhengping Li, Ph. D**

Prof. Zhengping Li got his Ph. D. in Chemistry College of Beijing University in 1999 and performed his postdoctoral research in Central Research Laboratory of Hitachi Ltd. from 2000 to 2002. Now he is the professor of College of Chemistry and Environmental Science in Hebei University and the director of the Key Laboratory of Medicinal Chemistry and Molecular Diagnosis, Ministry of Education. His research interests include developing detection methods of Single Nucleotide Polymorphisms (SNPs), microRNA assay and analysis of single cell by using nanoparticle and fluorescent probes.
